MY PERFECT ONE

FLOORLINE® – floors for the perfect moment

When we cook together at home, everything seems perfect to me. The day's work is done, and now we are enjoying life. When everything fits and nothing is missing, that is **my perfect one**. Others create their perfect moment enjoying good music on the sofa or during a spontaneous fashion show with their best friend in the hallway. They find it at the café or in creative moments in the studio. To each their own! But we all know how it feels when everything is just right: That is **my perfect one**.

» The café on my street feels like a living room to me, just more interesting – and with such charming service! «

My perfect one | Jan, regular and friend

At the café we meet people, whom we know or would like to get to know, for a quick espresso or a long talk. The coming and going of the guests is like a gentle river. A robust floor that creates a cosy **atmosphere** and retains its beauty for a long time is the foundation.

Friendly people

The guests cast glances at each other, enjoying their coffee or the newspaper. Here everyone is undisturbed, but nobody is alone.

Inviting: The flooring style makes a major contribution to the harmonious ambiance of the café. With its non-slip, powerful texture, the Grand Canyon surface emphasises the lively image of the grain.

Special feature

The deeply brushed Grand Canyon surface features a highly animated texture.

H2749 Boreal Pine

» Our kitchen is the most popular restaurant in the city. Here my children even enjoy the house salad. «

My perfect one | Lena, mother and chef

The kitchen is the focal point of our lives. This is where we cook and chat, eat together and play. The floor in an **Kitchen Diner** should radiate comfort and cosiness. Here the warm wood hue is a perfect match. Yet the floor must be durable and easy to care for.

The FLOORLINE® collection offers an extensive selection of robust surfaces. It matches the decor, the architecture and the personal style of the residents.

Family piazza

Cheerful children and fresh vegetables – the modern kitchen is the hub of everyday life.

Country home style: Like the floorboards in a country home, the perceptible grain and crosswise grooves of the saw cuts in the Vintage texture offer a non-slip grip.

Special feature

Saw cuts modelled after traditional craftsmanship make the Vintage texture highly slip-resistant (R10).

H2726 Northland Oak melange

» My study is the place where I can find my own true self. When the ideas are flowing, I am contented. «

My perfect one | Sonia, interior architect

The working world is changing. Creativity is in demand and the ambiance supports this. In the working space of the **future**, wellbeing and productivity are inextricably linked. The decors in the FLOORLINE® collection combine authenticity and fantasy with the right character.

H2746 Beachhouse Pine

Creative chaos

Comfortable chairs and bookshelves stand next to the drawing table. The line between working and living is blurring.

Special feature

The depth effect of the texture makes the decor image appear authentic.

» The greatest of adventures happen in my room. For example, robots landed here today. «

My perfect one | Moritz, explorer

Flight training

The romping ground for balls, robots and roughnecks is friendly and designed for many hard landings.

A playroom is transformed every day: it becomes a space station, then a cave, a theatre, a **sports field** and finally a nest again.

All of this happens on one and the same floor. It's comfortable, but the kids also can romp around on it safely and spills are no problem. That is why easy-care floors are also perfect for the nerves of the parents.

H2750 Balmoral Ash grey

Special feature

Thanks to synchronous pore technology, the decor image is perceptible to the touch like a wood grain.

Long panels and a light wood hue give the flooring the friendly look of a natural floor.

The robust surface protects it against damage.

Even ducks and elephants can join in the game.

The living room is the place where the soul breathes deeply. It requires a generous expanse of space to do so, yet it must also be allowed to feel protected and at home. A floor with a premium look and natural wood hue offers unrestricted cosiness. Floorboards in the **kingsize format** open up the room where we can enjoy the finer things in life.

Easy-care flooring demands little of us in return. The extensive selection of decors allows all aesthetes to perfectly harmonise wood hues, furniture and accessories.

Upscale

High standards apply to premium sound technology just as much as a durable floor that retains its beauty.

» All the greatest artists of this world perform in my concert hall. Experiencing them is my ultimate enjoyment. «

My perfect one | Martin, listener

Finally putting your feet up – the sofa is a quiet place in the everyday hustle and bustle, a box seat for exclusive concerts and movie experiences. It is supported by a floor that creates the right atmosphere for restorative private moments, which all of us need every now and then.

H2733 Arlington Oak

**Special feature**

The panels with a width of 32 centimetres (12.60") and bevels on the long sides give the room an elegant, generous appearance.

» The best moment of the entire weekend is when we try on our outfits for the evening in the hallway. «

My perfect one | Laura und Maria, friends

This hallway is an all-rounder. Here slippers are found next to the scooter. Okay, so the hallway may be a bit cramped and cluttered, but we feel free here. We don't just put on jackets and shoes by the **clothes rack**, we also do a photo shoot with our best friend.

The hallway is perfect for things that simply don't find space in the other rooms. This is why the flooring has to be modern and uncomplicated – able to keep its cool in this colourful chaos.

Catwalk

Quickly putting down the purse and pulling out the camera – the hallway is backstage and catwalk rolled into one.

Spike heels, a clothes rack and mirror demand the resistance of a stone floor from the laminate. It has the modern look of fair-faced concrete with discreet colour gradient.

Special feature

The textured surface gives the flooring materiality and the authentic look of concrete.

F854 Concrete rough

Today we can buy just about anything on the internet – and yet, customers want more. They want shopping as an experience, trying things on in a pleasant ambiance. They trust the **style** of the retailer. He thinks global and acts local. And knows how to present his products. The modern FLOORLINE® decors create a perfect platform for the exploration of style and contemporary design.

Expert forum

Trying things on and discussing them – the shop is a podium for good products.

*» I am at home anywhere in the world.
That is why I feel most comfortable
among products from all over the world.«*

My perfect one | Peter, retailer

F851 Sonic

The shop is the interface to the street. It accepts the outside with the used look of premium industrial flooring. Scratches and signs of use are style elements in the refined surface texture.

Special feature

The Authentic surface texture features a lively used look.

Fascinating surfaces – naturalness you can see and feel

From authentic to elegant to distinctive: The textures and depths of the FLOORLINE® surfaces are perfectly harmonised with the decors. Vintage surfaces play with the look of traditional craftsmanship, while Oiled replicates the elegance of parquet flooring. For a matching appearance, the collection also includes surfaces with stone, metal and ceramic textures.

Grand Canyon – slip-resistance that bears witness to traditional craftsmanship

A wire brush can be used to remove the soft elements from a wood surface, so that only the harder lines of the grain stand out. This creates a surface with a deep texture. Grand Canyon replicates this process with its very deeply **brushed surface**. It has a distinctive character and offers class R10 slip resistance.

Registered quality from the experts – flooring installation with additional benefits

With laminate flooring from EGGER, you receive a floor of high quality. It is robust, durable and easy to care for. That is what quality “Made in Germany” stands for. Every floorboard is automatically registered in the production process. The products reliably pass through several inspections. In order to ensure that your floor retains its beauty and value for a long time to come, it also needs to be carefully installed. Here the installation by a professional is the best

choice. This offers two advantages for you: Not only is your flooring installed perfectly and cleanly. For professionally installed flooring, EGGER also extends the guarantee by 5 years up to 30 years.* Register your new laminate flooring with EGGER and secure all the advantages of the exclusive EGGER PROFESSIONAL ADDED VALUE GUARANTEE.

EGGER PROFESSIONAL ADDED VALUE GUARANTEE* - details – *quality which no ifs and buts*

OUTSTANDING FORM STABILITY

Through the excellent form stability of the core boards from our own production, EGGER secures consistent quality. Therefore the abrasion guarantee* applies for the entire panel – also for the edges.

OUTSTANDING IMPACT RESISTANCE

Laminate flooring from EGGER is extremely robust and impact-resistant. Thanks to the special product structure, it is robust and withstands to even heavy use.

SPECIAL INSTALLER ADVANTAGE

EGGER trusts in the quality of the handcraft. This is why the guarantee is extended by an additional five years with professional installation for private applications.

- 1 Resilient, highly abrasion-resistant overlay
- 2 Decor paper
- 3 Swell barrier-plus coreboard made from natural wood fibres
- 4 Balancer
- 5 silenizio® underlay (only with identified decors)

We only use HDF-core boards of the quality standard E1.
All papers are resin-impregnated.

Our laminate flooring is certified according to:

* The EGGER laminate flooring guarantee terms apply (material guarantee for shock resistance and abrasion). Available from your distributor or to download on the Internet. In addition the EGGER PROFESSIONAL ADDED VALUE GUARANTEE terms apply.

Flooring with **WOODVISION® bevel** – for the authentic floorboard look

Bevelling the panel edges creates visible and perceptible joints when the elements are clicked together. This so-called bevel reinforces the nature of the floorboards and makes laminate flooring appear especially authentic.

WOODVISION® BEVEL ON 4 SIDES

A V-bevel on all four sides emphasises the special character of the floorboards.

WOODVISION® BEVEL ON 2 SIDES

Bevels on 2 sides of the floorboards highlight the length of a room.

FLOORLINE® – laminate flooring for the perfect moment

With its wide variety of decors, perfectly harmonised details and sophisticated technologies, FLOORLINE® embodies the perfect attitude towards life for any room and all requirements: from trendy to classic elegance, for residential or commercial applications, from normal to heavy use - FLOORLINE® combines ultimate quality with tasteful design.

ADVANTAGES

HYGIENIC Laminate flooring is one of the most hygienic flooring solutions. Easy to clean and maintain.

SHOCK-RESISTANT Even if something falls on it – the surface of laminate flooring is resistant to a lot of stress.

LONG-LASTING Guaranteed beautiful floors – The extremely hard surface provides for many years of beautiful decor surfaces and edges. We ensure this with our abrasion guarantee. It even includes the edges.

ANTISTATIC Due to antistatic properties, electrostatic charges are reduced.

SILENZIO®

Strength lies in tranquillity: silenzio® is the name of the comfort choice for footstep and ambient noise reduction. The underlay made of recyclable cellulose directly fixed to the panel reduces the subjective noise perception by up to 50% as compared to laminate flooring without silenzio®. Matching to every type of use, silenzio® offers finishes for normal, medium and hardest wear conditions.

Environmental protection contribution made by EGGER laminate flooring

WOOD, OUR MOST IMPORTANT RAW MATERIAL

Securing sustainable forestry over the long term is a top priority for EGGER. This is why we only use wood from sustainable forestry in our production. PEFC*, one of the leading certification systems in Europe, confirms our commitment.

COMMITMENT TO OUR ENVIRONMENT

EGGER products have also earned the oldest and most well-known ecological seal of approval in the world: the Blue Angel confirms our commitment to an intact environment.

* Programme for the Endorsement of Forest Certification Schemes

FROM THE TREE TO THE PRODUCT – A CLOSED CYCLE

Using the valuable raw material wood to the best possible advantage is a top priority for EGGER. This integrated approach extends from solid wood production in the sawmill to the production of wood-based materials such as laminate flooring. Wood residues and recycled wood that are not suitable for use in production are utilised thermally in our own biomass power plants. EGGER therefore makes “More from Wood”.
